Endorsement of the European Charter for Researchers and Code of Conduct for the Recruitment of Researchers

IKERBASQUE, the Basque Foundation of Science, which aims to contribute to the objectives of the European Research Strategy by fostering the mobility of researchers and the excellence in Science, declared in 2008 the commitment of the foundation to the principles laid down in the European Commission’s Recommendation on March 11, 2005.

In 2019, having endorsed the principles of the European Charter for Researchers and the Code of Conduct for the Recruitment of Researchers, IKERBASQUE reaffirms its commitment to implement these principles via the Human Resources Strategy for Researchers (HRS4R).
