Granada,

DECLARATION OF COMMITMENT BY ibs.GRANADA TO THE PRINCIPLES OF THE “EUROPEAN CHARTER FOR RESEARCHERS” AND “THE CODE OF CONDUCT FOR THE RECRUITMENT OF RESEARCHERS”

The Health Research Institute of Granada (ibs.GRANADA) intends to develop and promote a multidisciplinary scientific space where biomedical research projects develop, integrating basic science groups with others whose goals transcend into a translational research.

Among its strategic objectives are the development of an excellent research in areas of main interest for human health, the promotion of young researchers training and mobility and the support to national and international collaborations by integration in national and international networks.

ibs.GRANADA fully supports the principles of “The European Charter for Researchers” and “The Code of Conduct for the Recruitment of Researchers” and notify you about our commitment to get involved into the process of implementing a “Human Resources Strategy for Researchers” in our institution.

By adhering to this strategy, ibs.GRANADA contributes to create an adequate framework for recruitment and working conditions of researchers and to favour the strengthening of the European Research Area.

Signed, 10/03/2017
