

Declaration of commitment with the 40 principles of the Commission Recommendation of 11 March 2005 on the European Charter for Researchers and on a Code of Conduct for the Recruitment of Researchers

The Asociación Centro de Investigación Cooperativa en Nanociencias, CIC nanoGUNE (hereinafter, "nanoGUNE") is a non-profit making research center promoted by the Basque Government with the mission of performing world-class nanoscience research for the competitive growth of the Basque Country.

NanoGUNE's strategy is focused on addressing excellent research and technology-transfer in nanoscience and nanotechnology, fostering high-standard training and education of researchers in this field, and promoting the cooperation among various agents in the Basque Science, Technology, and Innovation Network and between these agents and industry.

We endorse the 40 principles of the Commission Recommendation of 11 March 2005 on the European Charter for Researchers and on a Code of Conduct for the Recruitment of Researchers and declare our commitment to get involved into the process of implementing a 'strengthened' Human Resources Strategy for Researchers (HRS4R) in our center.

NanoGUNE is committed to start the procedure and will undergo all subsequent phases moving from progress to quality in Human Resources Management for Researchers.
