Re: Commitment of the Aristotle University of Thessaloniki (AUTH) to the "European Charter for Researchers and the Code of Conduct for the Recruitment of Researchers"

The Aristotle University of Thessaloniki welcomes and fully supports the initiative of the European Commission and the recommendation given in the *European Charter and the Code of Conduct for the Recruitment of Researchers*.

Several of the general principles proposed in the Charter and in the Code are already common practice at the Aristotle University of Thessaloniki. Nevertheless, the Aristotle University of Thessaloniki will make sure that all further initiatives will be in line with the *European Charter for Researchers and the Code of Conduct for the Recruitment of Researchers*.

We would like to inform you that during the Rector's Council of the Aristotle University of Thessaloniki, which took place on 03/03/2011, the principles laid out in the Charter & Code were adopted (Ref. No. 32635/1-4-2011).

By implementing the Charter & Code principles, the Aristotle University of Thessaloniki intends to contribute to the realization of an open and attractive European labour market for researchers.

Sincerely,

Prof. Sofia Kouidou-Andrieou
Vice Rector

Chair Research Committee AUTH
