Ref: Declaration of Endorsement of the European Commission's Recommendation on the "European Charter for Researchers and the Code of Conduct for the Recruitment of Researchers"

Izmir Institute of Technology (IZTECH) welcomes the initiative of the European Commission and the recommendation regarding the European Charter for Researchers and the Code of Conduct for the Recruitment of Researchers (hereafter referred to as Charter & Code).

Several of the general principles proposed in the Charter & Code are already common practice at the Izmir Institute of Technology. Nevertheless, the Izmir Institute of Technology will make sure that others will be developed or will be addressed in the near future.

We are pleased to inform you that during the 25th Assembly of the Senate of the Izmir Institute of Technology, which took place on 25 September 2012, the principles laid out in the Charter & Code were adopted (Reference No: 02-25/25.09.2012).

By adopting the principles of the Charter & Code, the Izmir Institute of Technology expresses its intention to engage in this transnational effort to improve the conditions of researchers throughout Europe, to promote elements that make research an attractive career, to enhance the quality of research and innovation by the facilitation of international collaboration and transnational, interdisciplinary mobility of researchers and intends to contribute to the realization of an open and attractive European labour market for researchers.

Prof. Dr. Mustafa GÜDEN
Rector
