Dear readers,

"EURAXESS – Researchers in Motion" is a European Commission initiative focused on researcher mobility and career development. EURAXESS is active in 40 European countries and has representatives in six countries/regions around the world, including in the Latin American and Caribbean region: EURAXESS CELAC.

Adapted from our flagship publication in Brazil, the EURAXESS CELAC list of funding opportunities brings open calls to fund researchers’ mobility. The jobs, grants and fellowships announced are funded by the European Commission, EU member states or associated countries as well as private institutions and are open to researchers from Latin American and Caribbean States.

This list is published on a regular basis. This edition is valid for December.

To find more opportunities, we invite you to consult the EURAXESS Portal, and more specifically the:

- EURAXESS Job database that lists thousands of vacancies from more than 40 European countries and other regions in the world.
- And the Funding database allowing you to search for the funding programme you need for your mobility or research cooperation project.

Please note that individual researchers can upload their CVs on the portal, register their searches and create alerts to be informed when a vacancy matching their profile has been published. Funding organisations can publish their funding opportunities and scholarships on the EURAXESS website to increase their visibility and reach the best candidates worldwide.

We hope this list will help you turn your interest in research mobility into reality and remain at your disposal to discuss your projects.

Your EURAXESS CELAC Team

Grants & Fellowships

1. European Union

1.1 Horizon 2020 – Work programme 2018-2020 out now!

**Horizon 2020** is the EU funding programme for research and innovation running from 2014 to 2020 with a €80 billion budget. H2020 supports scientifically-excellent research, innovation, and technological development, through **collaborative research projects** as well as **grants and fellowships** to individuals.

The final Work Programme for Horizon 2020 covers the budgetary years 2018, 2019 and 2020, representing an investment of around €30 billion.

The vast majority of this funding is allocated on the basis of **competitive calls open to applications from researchers, businesses and other interested organisations** located in any of the EU Member States or countries associated to Horizon 2020. It is also open to the world, so Latin American and Caribbean researchers and institutions are very welcome to get involved.

1.2 Horizon 2020 – What’s in it for CELAC?

The European Union’s Horizon 2020 Work Programme 2018-2020, including preliminary information on all calls to be launched until 2020 has now been published. **SEE HERE FOR CALLS SPECIFICALLY OPEN TO CELAC RESEARCHERS AND INSTITUTIONS.**

On pages 11 and 12 of the « Roadmap for EU - CELAC S&T cooperation », you will find topics of particular interest for CELAC within the HORIZON 2020 work programme 2018-20.

**Access all open calls on the Horizon 2020 Participant Portal** by entering the Topic ID of the call in the search engine (top-right corner of page).

**Deadlines:** varying depending on call

1.3 **ERC Consolidator Grants**

**What are the ERC Consolidator Grants?**

ERC Consolidator Grants are designed to support excellent Principal Investigators at the career stage at which they are consolidating their own independent research team. Up to €2.75 millions are available for projects of up to 5 years duration.

**Who can apply?**

Researchers of **any nationality with 7-12 years experience** since completion of PhD (Extensions are possible under certain circumstances — see the latest ERC Work Programme), a scientific track record showing great promise and an excellent research proposal.

**How much?**

Consolidator Grants may be awarded up to € 2 million for a period of 5 years. (pro rata for projects of shorter duration). However, an additional € 0.75 million can be made available to cover eligible “start-up” costs for researchers moving from a third country to the EU or an associated country and/or the purchase of major equipment and/or access to large facilities.

An ERC grant can cover up to 100% of the total eligible direct costs of the research plus a contribution of 25% of the total eligible costs towards indirect costs.

**Location**

Research must be conducted in a public or private research organisation (known as a Host Institution/HI). It can be the HI where the applicant already works in Europe, or any other HI located in one of the EU Member States or associated countries.

Important information on the call is included in the ERC Work Programme 2018 and especially in the call-specific Information for Applicants. The mandatory templates are available from the Participant Portal.

**Deadline:** 15 February 2018

**About the ERC:**

Set up in 2007 by the EU, the **European Research Council** is the first pan-European funding organisation for frontier research. It aims to stimulate scientific excellence in Europe by encouraging competition for funding between the very best, creative researchers of any nationality and age. The ERC also strives to attract top researchers from anywhere in the world to come to Europe. It funds young, early-career top researchers (**ERC Starting grants**), already independent excellent scientists (**ERC Consolidator Grants**), and senior research leaders (**ERC Advanced Grants**).

Please, note that ERC grants support projects carried out by an individual researcher (‘Principal Investigator’) who can **employ researchers of any nationality as team members**. It is also possible to have one or more team members located in a non-European country.

Vacancies for team members interested in joining an ERC led research project, can be published on the Euraxess-Jobs portal.

1.4 **ERC Proof of Concept Grant 2018**

Additional ERC funding scheme for researchers of **all nationalities** who already got an ERC grant (Starting, Consolidator, Advanced or Synergy) which
is either ongoing or where the project has ended less than 12 months before the publication date of an ERC Proof of Concept call. The grants are worth up to €150,000 for a duration of up to 18 months.

Deadline: 16 January 2018

1.5 Marie Skłodowska-Curie Actions – Open call to select Innovative training networks (ITN)

Innovative Training Networks (ITN) is the main European doctoral training programme, putting a special emphasis on non-academic sector participation and the innovation dimension. Innovative training networks bring together complementary institutions from different countries worldwide to train a new generation of researchers.

It is funded under the Marie Skłodowska-Curie actions/ Horizon2020 European Union funding programme.

The call will be open to consortia of organisations such as universities, research centres or companies, that propose a research training network, including Latin American and Caribbean institutions. There are three types of Innovative Training Networks:

1. European Training Networks (ETN)

Joint research training, implemented by at least three partners from in and outside academia. The aim is for the researcher to experience different sectors and develop their transferable skills by working on joint research projects.

The organisations should be established in at least three different EU or associated countries. Additional participants from any organisation anywhere in the world, including Brazil and other CELAC can also join a network.

2. European Industrial Doctorates (EID)

Joint doctoral training delivered by at least one academic partner entitled to award doctoral degrees, and at least one partner from outside academia, primarily enterprise. Each participating researcher is enrolled in a doctoral programme and is jointly supervised by supervisors from the academic and non-academic sector, where they spend at least 50% of their time.

The aim is for the doctoral candidates to develop skills inside and outside academia that respond to public and private sector needs.

The organisations should be established in at least two different EU or associated countries. A wider set of partner organisations from anywhere in the world may also complement the training.

3. European Joint Doctorates (EJD):

A minimum of three academic organisations form a network with the aim of delivering joint, double or multiple degrees. Joint supervision of the research fellow and a joint governance structure are mandatory. The aim is to promote international, intersectoral and multi/interdisciplinary collaboration in doctoral training in Europe.

The organisations should be from different EU or associated countries. The participation of additional organisations from anywhere in the world, including from the non-academic sector, is encouraged.

The maximum duration of an ITN project is four years. Calls are annual.

Read the guide for applicants for more details.

Please, note that the call is not open to individual researchers/students. Latin American and Caribbean researchers interested in high quality doctoral-level training in and outside academia can apply to the PhD positions created by these networks, including Industrial Doctorate and Joint Doctorate. They are advertised on the Euraxess Job portal.

1.6 European University institute (EUI) - Fernand Braudel Incoming Senior Fellowships

Fellowships last for up to ten months in one of the EUI's four Departments which in turn invite fellows to participate in departmental activities (seminars, workshops, colloquia, etc.).

Fellows are encouraged to make contact with researchers sharing their academic interests, may be involved in the teaching and thesis supervision tasks of EUI professors, and associated with one of the research projects being carried out at the EUI.

There are two annual deadlines for applications, depending on the department:

- 30 March 2018 (Law, Economics)
- 30 September 2018 (Economics, History and Civilisation, Political & Social sciences)

1.7 EURAXESS Jobs

There are currently around 10489 research job positions / 5100 offers (all over Europe, but also in other countries including in CELAC and in all disciplines) announced on the EURAXESS Jobs database. Opportunities can be viewed by country, level of seniority, field or research or via free text searches.

Please note that these jobs also include doctoral positions, including those funded by the Marie Skłodowska Curie Actions (MSCA – ITN & Cofund) and by the European Research Council (ERC).
2 EU Member States and Associated Countries

2.1 National EURAXESS Portals

The latest information on open calls for national grants and fellowships in the 40 member countries of the EURAXESS network can be accessed on the respective national EURAXESS portals:

Austria, Belgium, Bosnia-Herzegovina, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Faroe Islands, Finland, France, Macedonia, Germany, Greece, Hungary, Iceland, Ireland, Israel, Italy, Latvia, Lithuania, Luxembourg, Malta, Moldova, Montenegro, Netherlands, Norway, Poland, Portugal, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey, UK.

2.2 AUSTRIA – Ernst Mach Grant (Incoming)

The Austrian government awards Ernst Mach Grants to postgraduates, PhDs, postdocs and lecturers from all over the world to conduct studies in Austria for one to 9 months in the following fields:

- Natural Sciences;
- Technical Sciences
- Medicine
- Agriculture
- Social Sciences
- Humanities
- Arts

Applicants must not have studied/pursued research/pursued academic work in Austria in the last six months before taking up the grant. Maximum age: 35 years.

Deadline: 1 March 2018

2.3 AUSTRIA – Richard Plaschka Fellowship (Incoming)

Grant for visiting university lecturers (Postgraduates, PhD holders, researchers) in humanities (History, Archaeology, Linguistics and Literature, Arts) who are primarily occupied with Austria-related topics.

Recipients of Plaschka grants can work in Austria as visiting researchers for 4 to 18 months at university departments and institutes and carry out specialist studies in libraries, archives or at research institutions.

Deadline: 1 March 2018
2.4 BELGIUM - PRoF Award for innovative projects in healthcare applications - Call for candidates 2018 (Incoming)

The University of Ghent is looking for innovative projects in the broad domain of healthcare applications to enter an award competition organised by the PRoF chair, held by prof. dr. R. Peleman.

The competition accepts all innovations created in the healthcare domain (medical, care, ageing society, etc.) and more specifically one of the following areas:

- new concepts or theories in healthcare models (medical, care, ageing society)
- new insights regarding healthcare infrastructure (architecture and/or equipment)
- innovating healthcare processes and/or procedures
- innovating healthcare products and/or services

AWARD DETAILS:

The jury will select the top 3 innovating projects that will be invited to present their project during the international symposium on May 16th 2018 at Ghent University. During the symposium, a winner will be selected out of these 3 laureates who will receive the PRoF award (with a value of 10.000 €). The winner will be invited to present the results achieved by winning the award during the 2019 Award Symposium.

Deadline for registering: 8 January 2018. Deadline for submission: 1 March 2018

2.5 DENMARK - Call for research collaboration projects in growth and transition countries

Supports strategic research cooperation projects between a research institution or a university in Denmark and a partner country (Brazil, Mexico and Colombia included) which will generate new knowledge relevant to the needs and strategies of the growth and transition countries and contribute to strengthening research capacity in developing countries. The Window 2 Call for research with partners in growth and transition countries is available to Brazilians, Mexicans and Colombians (see themes in left column).

WHO? Only research-based institutions in Denmark are eligible for these research grants and only in partnership with research institutions in the countries mentioned above.

The duration of projects is 18 to 36 months within a maximum grant of DKK 5 million for each project

Deadline: 2 February 2018.

2.6 DENMARK - Danida Mobility Grants (incoming)

The grants aim to facilitate the creation and development of international networks and research collaboration through research stays in Denmark by researchers from the growth and transition countries included in the “Partnering with Denmark” programme, among them Brazil, Colombia, Mexico.

Eligibility: PhD holders in the areas mentionned above.

No application deadline.
2.7 DENMARK - **H.C. Ørsted postdoc programme (Incoming)**

Technical University of Denmark (DTU) invites highly talented experienced researchers who have achieved outstanding results in their research while demonstrating excellence and potential in their field to apply for one of the fellowships under the H.C. Ørsted Postdoc programme, co-funded by Marie Skłodowska-Curie Actions.

The program includes two types of fellowships; junior (postdoc) and senior (assistant/associate professor).

- **Junior fellowships (postdoc)** for those who have received their PhD degree within the period of 0 months to 5 years from the time of recruitment (1 July). Junior fellowship contracts are offered for 12-24 months; 24 months being the general duration;
- **Senior fellowships (assistant/associate professor)** for applicants who have 5+ years of experience from PhD graduation at the time of recruitment (1 July), and should be at a level of their career where they have had postdoc fellowships or similar and are ready academically to enter the next level of the career ladder. Senior fellowship contracts are offered for 3-12 months; 12 months being the general duration.

Eligibility: At the time of recruitment applicants must not have resided or carried out their main activity in Denmark or at DTU for more than 12 months in the 3 years immediately prior to recruitment.

Applications must lie within one of five programme areas:

- Mathematics, physics, space research and informatics
- Chemistry, biotechnology and chemical engineering
- Electronics and communication
- Construction, production, buildings and transportation
- Life science

Deadline: Call to open on 1 December. 23 February 2018
2.8 FRANCE - **Institut Curie International PhD fellowships** IC-3i (Incoming)

The call aims at recruiting motivated students for 12 PhD projects, with contracts starting in **October 2018**.

The thesis projects cover Institut Curie’s 4 main research axes and its translational department:

- Biology & Chemistry of Radiations, Cell Signaling & Cancer
- Biology, Cancer, Genetics & Epigenetics
- Integrative Tumour Biology, Immunology & Environment
- Multiscale Physics-Biology-Chemistry
- Translational Research

The IC-3i-PhD fellows will carry out research at Institut Curie, located in **Paris (France) and its surroundings**. This vibrant environment is based on the pluri-disciplinary approaches and excellence offered by over 80 **research groups**, comprising Institut Curie’s 12 research departments and its hospital group.

**Deadline**: 18 January 2018

2.9 FRANCE – **Victor Hugo Scholarships** (Incoming; sandwich masters and PhD)

Pilot programme of the University of Franche-Comté, with the financial support of the City of Besançon and the Burgundy Franche-Comté Region, encouraging university exchanges with Latin America (Central and South America, the Caribbean, Spanish and Portuguese language countries) and Haiti.

The aim is offer scholarship to study for one year at the University of Franche-Comté as part of a Master’s or Doctoral programme.

Funding includes university tuition fees, single room accommodation at the University campus for 12 months, two meals per day at the university restaurant, Internet subscription and intensive French language lessons for two months (July and August) at CLA - Center of Applied Linguistics of the University of Franche-Comté.

**Deadline**: TBC (call opening end Nov)

2.10FRANCE - **Post-doctoral research visits at Inria** (Incoming)

All year long, the French Institute for Research in Computer Science and Automation (INRIA) organises post-doctoral research visits for individuals of all nationalities holding a PhD. Particular attention will be paid to French and international candidates who have studied their PhD abroad. Rolling basis: **Currently 18 positions open with varying criteria**.

Deadlines depending on the project: from **30 November 2017 - 31 December 2017**
2.11 FRANCE – Invited Scholars Fellowships at IHEAL (Incoming) in social sciences

The Institute of Latin American Studies (IHEAL - University Sorbonne Nouvelle-Paris 3) has opened its 2018-2019 call for Invited professors in all fields of social science. For the academic year 2018-2019, classes in Geography, Economy and Anthropology are highly preferred, as well as candidates working on Central America, the Caribbean and the Andean countries.

WHO? Open to foreign researchers and professors (from North America, South America and Europe) who specialise in the study of Latin-American societies and work in universities in these regions.

Deadline: 7 January 2018

2.12 FRANCE – Le Studium Research Fellowships (Incoming, post-doctoral)

The call for projects at LE STUDIUM Loire Valley Institute for Advanced Studies is open to all research disciplines and offers post-doctoral fellowships for international experienced researchers in region Centre-Val de Loire laboratories including:

- A 12-month fellowship in a high level laboratory
- Integration in an international scientific community
- Funding and organisation of international scientific events
- Enabling environment (housing, administrative support, etc...)

Eligibility:
Candidates have to identify a research team in the region Centre-Val de Loire accepting to host the one-year residency. If necessary, LE STUDIUM can help establishing a link with a laboratory in the desired scientific field in the region.

Deadline: 8 February 2018

2.13 FRANCE – Eiffel excellence scholarships 2017 (Incoming)

The programme aims to attract elite overseas students on Masters (12 to 36 months) and PhD courses (for 10 months under a thesis joint supervision or co-tutorship).

The three major areas of study covered by the Eiffel program are:

- Engineering sciences at Master level, sciences in a broader sense for PhD level (engineering sciences, exact sciences: mathematics, physics, chemistry and life sciences, nano and bio-technology, earth and environmental sciences, information and communication sciences and technology),
- Economics and management,
- Law and political science.

Eligibility: All nationalities except French. Applicants must be no more than 30 years old for masters, 35 years old for PhD.

Note that applications must be submitted by the French higher education institutions.

Deadline: 12 January 2018
2.14 FRANCE  – **AgreenSkills+ (outgoing) postdoctoral fellowships**

AgreenSkills+ sets out to encourage the international mobility of young researchers, from 6 to 24 months for outgoing fellows (an additional 6 month return period in Europe is mandatory), by supporting research projects in the fields of *agriculture, food, nutrition, environment, animal health and veterinary public health*. Agreenskills offers very attractive mobility allowances and personalised support for career development plans.

**Eligibility:**
- The programme is aimed at *researchers working for an Agreenium-IAVFF member organisation*. See details of all Latin American and Caribbean institutions included here.
- Holding a PhD with less than 10 years of postdoctoral research experience.
- Have spent at least 2 years in France within the last 3 years immediately prior to the expected date of mobility;
- Be able to write and speak fluent English or French;

AgreenSkills+ outgoing fellowships are for a mobility period of 6 to a maximum of 24 months. An additional 6 month return period in Europe is mandatory.

**Deadline:** 8 February 2018 (last round of programme)

2.15 GERMANY – **PhD fellowships in organismal biology (Incoming)**

**WHAT?** The International Max Planck Research School (IMPRS) for Organismal Biology offers fellowships for PhD projects in Organismal Biology. All projects are fully funded for at least 3 years.

**WHO?** *All nationalities considered.* Applicants must have graduated from a min. 4-year study programme with comprehensive scientific thesis work in Biology or a related field (Masters or equivalent degree).

**Deadline:** 15 January 2018

2.16 ISRAEL  – **Dan David Prize and Scholarships (Incoming)**

The Dan David Prize awards scholarships to *doctoral and postdoctoral researchers* doing research in the following selected fields:
- Past: History of science
- Present: Bioethics
- Future: Personalised medicine

Three prizes of one million US dollars each are granted annually in the fields chosen for the three time dimensions. The prizes are granted to individuals or institutions with proven, exceptional, distinct excellence in the sciences, arts, humanities, public service and business, that have made and continue to make an outstanding contribution to humanity on the basis of merit, without discrimination of gender, race, religion, nationality, or political affiliation.

The Dan David Prize laureates annually donate twenty scholarships of USD 15,000 (EUR 12,000) each to outstanding *doctoral and postdoctoral*...
**students** (ten scholarships to students at universities throughout the world and ten scholarships at Tel Aviv University).

**Deadline:** 10 March 2018

**2.17 ISRAEL - Global Health Summer Programme at the Ben-Gurion University of the Negev** (Incoming)

**Scholarships are available for outstanding students.**

The programme consists of the following components:

- Health in the Age of Globalisation
- Israeli Public Health Innovation for the world
- One Week on-site Practicum
- Professional field trips, exercises and small groups mentoring
- Touristic tours

**Eligibility:**

Students completing their third year of bachelor’s degree and students for Masters degree, both in the fields of Health sciences, and Social Sciences with interest in public policy and health economy. English proficiency required.

**Deadline:** 25 February 2018

**2.18 LUXEMBOURG – INTER Mobility 2018 Programme (Incoming and outgoing)**

WHAT? The aim of the INTER Mobility Programme is to promote scientific exchange between research groups of Luxembourg public research institutions and research groups abroad in order to foster innovative, internationally competitive research and to support the exchange of key knowledge and technological know-how (incoming/outgoing).

WHO? The programme intends to support:

- Researchers working in Luxembourg to go abroad, or
- Researchers from abroad to come to Luxembourg.

The minimal duration of an FNR-funded research stay is 6 weeks and the total cumulated duration of a research stay is limited to 1 year.

**Deadline:** 20 January 2018 (Call opening soon).

**2.19 NETHERLANDS - Holland Scholarships** for Bachelor and Masters candidates (Incoming)

The Holland Scholarship is financed by the Dutch Ministry of Education, Culture and Science as well as several Dutch research universities and universities of applied sciences. This scholarship is meant for international students from outside the European Economic Area (EEA) who want to do their bachelor or master's in the Netherlands.

**Deadlines:** either 1 February 2017 or 1 May 2017, depending on the host institution.
2.20 NETHERLANDS - Orange Tulip Scholarship Brazil and Orange Tulip Scholarship Mexico Programmes (Incoming)

The Orange Tulip Scholarship Brazil and Mexico programmes are specially aimed at Brazilian and Mexican students with academic excellence.

Orange Tulip Scholarship consists of scholarships (full or partial) on the tuition fee, and in some cases covers other costs (e.g. visa costs and insurance). The programme covers full baccalaureate, senior year of graduation, MBA and full masters degree in several areas of study. All grants are for courses fully taught in English and of internationally recognised quality.

Orange Tulip Scholarship in a nutshell:
- Levels of study: Undergraduate, Postgraduate (MBA and Masters)
- Courses in the areas of: Arts, Biological Sciences and Health, Exact, Technological and Human
- Benefits of up to 50,000 Euros in annuities + cost aid

Deadline: 1 April 2018.

Be aware of the deadline established by the university you are applying for and finalise the admission process for Orange Tulip Scholarship by the deadline defined by the institution (which can be as soon as 1 February 2018). List of participating universities for Brazil and for Mexico.

2.21 NETHERLANDS - Innovational Research Incentives Scheme Veni (Incoming)

The Netherlands Organisation for Scientific Research (NWO) launched a call under its Innovational Research Incentives Scheme Veni.

WHAT? grants of EUR 250,000 to conduct independent research for a period of three years. All fields are covered by this scheme.

WHO? The grant is open to researchers who have recently obtained their PhD (within the last three years). Researchers from outside the Netherlands can apply, but the project to be funded should be carried out at a Dutch institution recognised by NWO.

Deadline: 9 January 2018

2.22 POLAND – short-term research fellowships in Poland (Incoming, short term)

The Polish Institute of Advanced Studies PIAS invitest applications for 5- or 10-month research fellowships, starting their residencies from October 2018. Applications are open to active researchers from any country at two stages of their careers:

- juniors/postdocs, who have obtained their PhD in the last 10 years and have subsequent working experience as researchers for at least 3 prior to the application date (PhD training is not considered in the calculation of research experience);
- seniors/professors, who have minimum 10 years of full-time research experience after obtaining a PhD.

Deadline: 30 December 2017.

Curious about all scholarships available in the Netherlands? Check out the complete current opportunities list here. You can filter the scholarships by your country of origin.

Nuffic Neso also provide a page for nationals of Celac who want to study in the Netherlands here.
2.23 SPAIN - Research funding opportunity with Pharma company Almirall (Incoming)

R&D funding opportunity of Spanish pharma company ALMIRALL under their shared innovation initiative Almirall Share and from which researchers worldwide in the field of dermatology could benefit.

Almirall Share is a new innovation initiative aimed at boosting collaborative research in the field of dermatology with universities, research centres, hospitals, start-ups, biotechs around the world bringing together smart minds to provide solutions for skin diseases such as psoriasis, atopic dermatitis, acne or rosacea.

Almirall is looking for translational preclinical models and offers financial and scientific support to develop novel pharmacological validated in vitro and in vivo research models in any of those skin diseases.

Funding: From EUR 25,000 to 100,000 per project.

Deadline: 31 December 2017

2.24 UK (British Academy) - Newton Mobility Grants

For scientists in Brazil, Mexico, South Africa and Turkey who want to establish and develop collaboration with UK researchers around a specific jointly defined research project.

These one-year awards might include a range of related activities, but mobility (in the form of visits and exchanges, etc.) should form an integral part of proposals. The main purpose of the funding is to cover travel and maintenance costs, although costs related to other eligible activities will be considered.

Partnerships including a training element and involving scholars in the early stages in their career will be looked on favourably.

WHO? Both a UK-based applicant and an overseas-based applicant are required for this scheme. Both applicants must have a PhD or equivalent research experience and hold a permanent or fixed-term contract in an eligible university or research institute.

The British Academy Newton Mobility Grants cover researchers working in all disciplines within the social sciences and humanities.

Deadline: 20 December 2017.
2.25UK (Newton Fund) Newton Advanced Fellowships

This award is available to international early career group leaders to develop their research by linking them with some of the best research groups in the UK.

Eligibility

Applicants must have a PhD or equivalent research experience and hold a permanent or fixed-term contract in an eligible university or research institute, which must span the duration of the project. Applicants should have no more than 15 years of postdoctoral experience.
